Subject: Bristol Bay FOIA

Cara,

I am sending this e-mail to let you know that I do not have documents responsive to this search. While I was listed on a recent agenda for the National Tribal Caucus monthly call with EPA for this topic, I was listed for purposes of my position as the Office of Water national tribal coordinator; I was not the speaker on the topic of the Bristol Bay watershed assessment. I have had no communications on matters relating to the Bristol Bay watershed assessment with external parties.

FYI-

I came across this posting on the AIEO Intranet site, and am sharing this with you so you can ensure EPA is covered for this in the FOIA:

March 8, 2012 - Bristol Bay, Alaska Delegation. Michelle DePass, JoAnn Chase and David Guest met with Lisa Reimers, Iliamna, Alaska, and her colleagues Trefon Angasan and Abe Williams. The three are listed as officers of Nuna Resources, Inc. and are affiliated with native for-profit corporations. Ms. Reimers requested the meeting to share with EPA what they believe are the potential positive aspects of the proposed Pebble Mine and to voice concerns about the project review process and the Bristol Bay watershed assessment. Ms. Reimers indicated that she and her colleagues had met previously with Deputy Administrator Perciasepe, Robert Sussman, and Regional Administrator McLerran. Rick Parkin, Region 10, participated via teleconference (Chase, Guest).

Thank you,

Felicia Wright, Tribal Coordinator
